House—The house entered upon the consideration of the Loud bill to restrict the character of publications entitled to pound rates as second class mail matter. The bill has been before congress for several years. Mr. Loud defended the bill in a long speech, Before the bill was taken up Mr. Suizer delivered a denunciation of the administration in connection with his resolution of inquiry calling upon the war department for information as to what fortifications Great Britain was erecting on the Canadian border. The committee on mailtary affairs submitted a reply of Adit. Gen. Corbin saying such information was servet, but that Great Britain was erecting no works which therefore the committee of mailtary affairs submitted recommended that the resolution lie upon the table. The house sustained the committee's recommendation by a vote of 119 to 97.

Washington, March 21.—Senate—Upon the authority of the governor of Alaska, Mr. Turner made the statement that concessions for gold mining in the bed of the sea near Cape Nome, Alaska, had been granted by the secretary of war and upon that statement he based a resolution of inquiry. The resolution was agreed to. In a few minutes and without discussion the additional urgent deficiency bill was passed, with one or two other measures of no importance.

House—The entire session was taken up discussing the Loud bill relating to second class mall matter. Mr. Loud has agred to accept two amendments, one to increase the sample copies which newspapers can send out at second class rates from 500 to 1,000 and the other to limit the provisions requiring newspancers to separate their mail to those having in excess 5,000 circulation. These are all the concessions he will make. He says the debate has strengthened the bill and he celleves it will pass.
